

BATCH BOX

BY FEEDING SYSTEMS

2500 E. 23rd Street • Columbus, NE 68601

(402) 564-1400 • www.thebatchbox.com

- **ELIMINATES COSTLY TIME BETWEEN LOADS**
- **HYDRAULICALLY RAISED & LOWERED**
- **MEASURES & WEIGHS FEED**

The Batch Box was created to streamline the feeding processes.

The Batch Box is a hydraulically raised and lowered side-dump box, powered by an electric motor used to temporarily batch feed ingredients.

Reduces the time spent running a loader between ingredients and the waiting mixing truck or wagon.

The Batch Box is designed to reduce mixing trucks/wagons, save on fuel, reduce labor and costly engine hours.

Who We Serve

BEEF FEEDYARDS • DAIRY • HEIFER YARDS

BB900

Approx. 900 Cubic Feet

Dumping Capacity

- 20,000 lbs Working Capacity
- 25,000 lbs Max Capacity

Specifications:

- 19'L x 11'5"W
- Non-stick, superslide plastic poly liner
- Handheld remote controller with programmable customizable dump settings
- **Basket:** 12'W
- **Dumping Height Clearance:** 12' Raised
- **Scale:** Digi-star Load Cells
- **Motor:** 30hp Three Phase 480 VFD (Variable Frequency Drive)

BB1100HD

Approx. 1,100 Cubic Feet

Dumping Capacity

- 35,000 lbs Working Capacity
- 40,000 lbs Max Capacity

Specifications:

- 22'L x 11'5"W
- Non-stick, superslide plastic poly liner
- Handheld remote controller with programmable customizable dump settings
- **Basket:** 15'W
- **Dumping Height Clearance:** 12' Raised
- **Scale:** Digi-star Load Cells
- **Motor:** 60hp Three Phase 480 VFD (Variable Frequency Drive)

BB1100HDHC

Approx. 1,600 Cubic Feet
(Dairy Rations/High Roughage)

Dumping Capacity

- 35,000 lbs Working Capacity
- 40,000 lbs Max Capacity

Specifications:

- 22'L x 11'5"W
- Non-stick, superslide plastic poly liner
- Handheld remote controller with programmable customizable dump settings
- **Basket:** 15'W
- **Dumping Height Clearance:** 12' Raised
- **Scale:** Digi-star Load Cells
- **Motor:** 60hp Three Phase 480 VFD (Variable Frequency Drive)
